Office

Office

[Sneeze Guards](#)

[Desk Partitions](#)

[Posters/Signs/Decals](#)

[Banners/Floor Graphics](#)

For many essential workers, navigating an office environment while maintaining appropriate safety precautions and social distancing can be a difficult task.

To help facilitate the transition back into a communal workspace, we have introduced a number of custom products designed to limit the spread of germs and bacteria with minimal impact on your workflow.

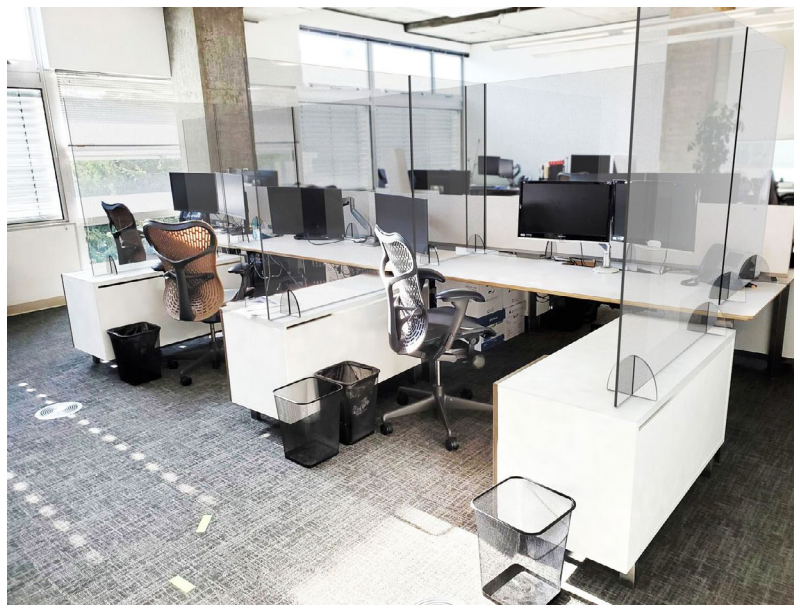

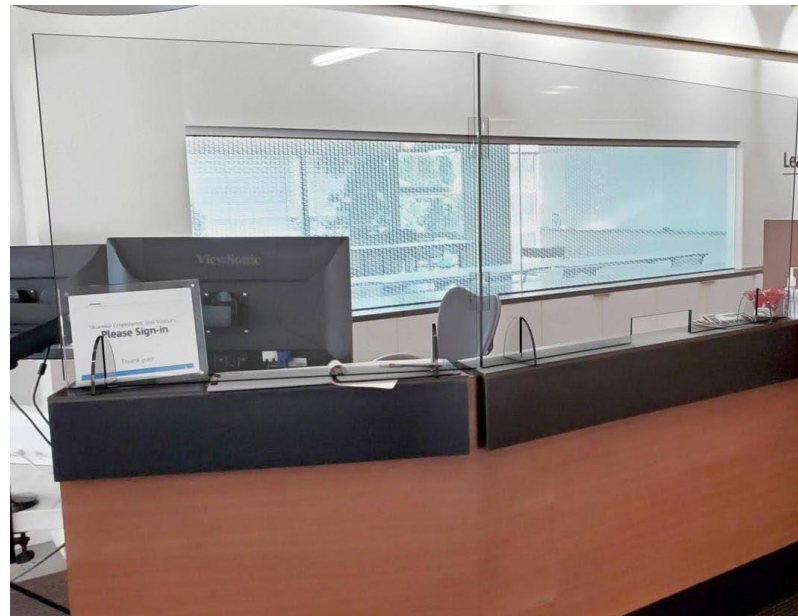

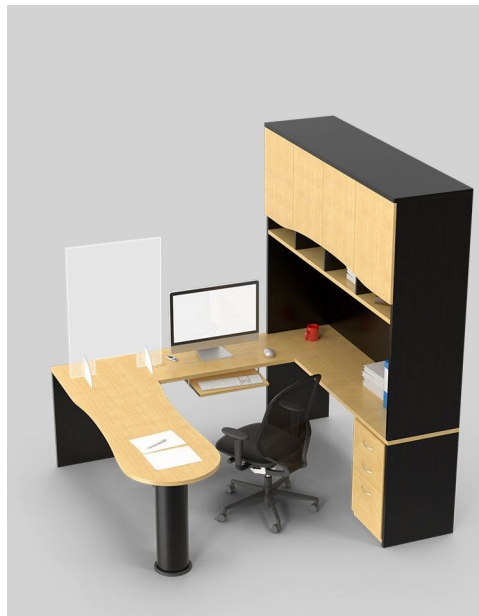

Office

Sneeze Guards

Available in virtually any size, shape, and configuration, our clear plexiglass sneeze guards allow you to limit the spread of airborne particles without hampering communication.

Our office sneeze guards are lightweight and portable, allowing for easy usage in a variety of office settings including:

- Reception Areas
- Conference Rooms
- Office Desks
- Classrooms
- Training Rooms
- Workstations
- Computer Labs

Office

Desk Partitions

Our desk partition systems are an ideal solution for open and communal working environments where social distancing is needed but in-person interaction is still essential to your success.

ABC Imaging desk partitions can be entirely customized to fit the requirements of your space. We offer site surveys in most major markets so you can be sure your custom system is tailored to the exact specifications of your workspace.

Desk partitions are available in clear and frosted finishes.

Office

Posters/Signs/Decals

Promote social distancing and best practices for avoiding the spread of germs with posters, signs, and decals for your office.

ABC Imaging offers styles with custom art or pre-made designs with CDC-recommended procedures to limit the spread of viral particles.

These posters, signs, and decals are perfect for spaces such as:

- Reception Areas
- Elevators
- Restrooms
- Conference Rooms
- Break Rooms
- Workstations

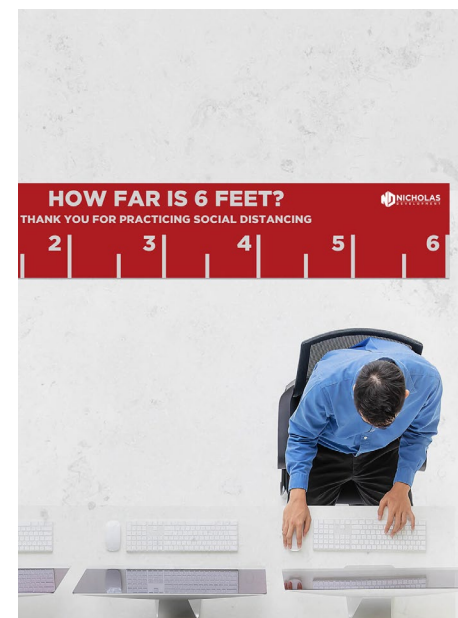

Office

Floor Graphics/Banners

Floor graphics and banners offer consistent reminders of optimal social distancing, hand washing, and directional information throughout your office environment.

Our ultra-removable adhesive comes off as easy as it goes on so changing or removing your graphics is simple and easy. Banners are available in a variety of sizes, materials, and configurations. We offer vinyl, mesh, and fabric banners in both standard hanging formats and also retractable formats.

Retail & Restaurants

Retail & Restaurants

[Cashier Shields](#)

[Floor Graphics](#)

[Banners & Signs](#)

[Barricades](#)

[Custom Displays](#)

Our suite of products for retail and restaurants allows your business to operate safely and efficiently within social distancing restrictions.

With our array of floor graphics, personal protective equipment, signage, posters, and more, we help equip you to provide a safe and efficient shopping and dining experience for your customers and employees.

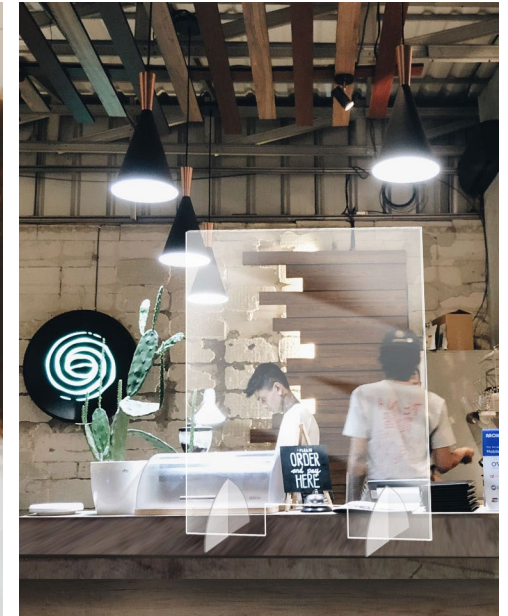

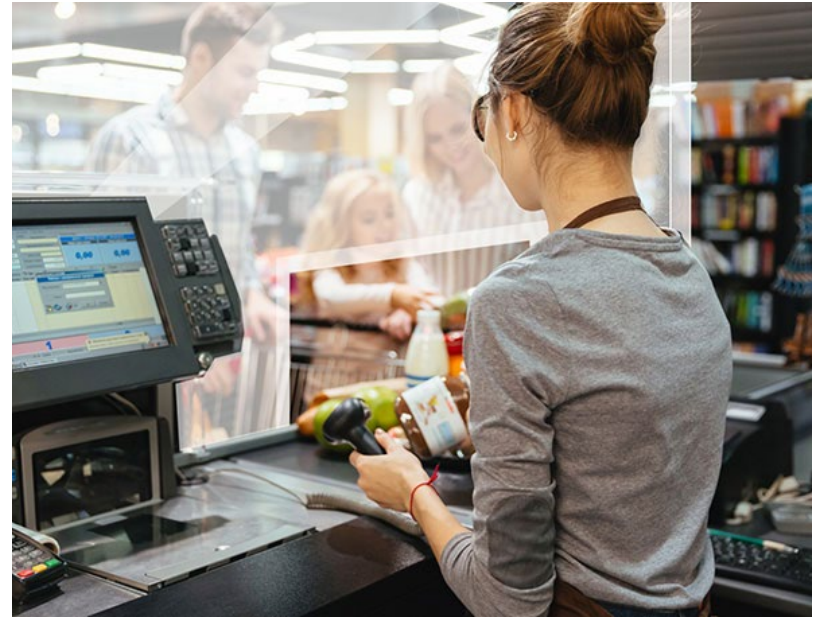

In addition to our selection of products to promote safety and social distancing, we also offer custom graphics, point of purchase installations, and window displays.

Retail & Restaurants

Cashier Shields

These plexiglass barriers keep your employees and customers safe as transactions are carried out throughout the day.

Our clear plexiglass material allows for clear communication while limiting the spread of airborne particles. These shields can be customized entirely to fit your space with custom dimensions and cutouts to allow for safe transfer of merchandise, change, and receipts.

Retail & Restaurants

Floor Graphics

Offer concise direction in a format that melds with the aesthetic of your environment with custom floor graphics. Choose from any of our pre-designed templates, provide your own file, or work with a member of our creative team to design a custom piece for your location.

We use a high-quality PVC film that both offers a vivid canvas for your designs and is durable enough to stand up to continuous usage.

Options for designs include:

- “Stand Here” markers
- One-way aisle directions
- Social distancing visual aids
- Waiting areas

Retail & Restaurants

Banners & Signs

Advertise your latest promotions, let customers know you are open, and promote safety best practices with custom banners and signs.

We offer a variety of large format solutions for retail locations and restaurants including vinyl, mesh, and fabric banners and signs as well as retractable banners and adhesive decals. Large format signage is perfect for:

- “We’re Open” signage
- Promotional advertising
- Safety procedures

Retail & Restaurants

Barricades

ABC Imaging temporary modular wall barricade systems are a powerful and versatile tool for property owners and developers. Years ahead of traditional drywall alternatives, our barricades offer a more efficient and comprehensive solution for retail spaces in malls, shopping centers, airports, and more.

The modular nature of our barricade systems allows us to outfit spaces of virtually any size and configuration including curved sections. Our barricades are also entirely recyclable and can be reused time and time again, maintaining complete landfill avoidance.

ABC Imaging barricade systems are well-suited for virtually any retail environment including spaces like:

- Malls
- Shopping Centers
- Restaurants
- Airports
- Kiosks

Retail & Restaurants

Custom Displays

Our custom fabrication department specializes in creating custom activations for use as in-store or window displays. With clients ranging from Vans to Clinique, Coach, Citi Bank, Regal Cinemas, and much more, we have the experience to support internationally recognized brands in activations across the US and abroad.

We produce custom-fabricated designs for uses including:

- In-store activations
- Window graphics
- Point-of-purchase displays
- Product features

Health

Health

[Sneeze Guards](#)

[Face Shields](#)

[Informational Posters](#)

[Graphics & Signage](#)

As America begins to re-open many businesses, medical offices, nail salons, and spas require an especially high level of protection due to the proximity with which patients, clients, and customers are treated. With our variety of emergency products, we offer a one-stop solution allowing you to outfit your facility quickly and easily with all necessary protective, safety, and informational materials.

Health

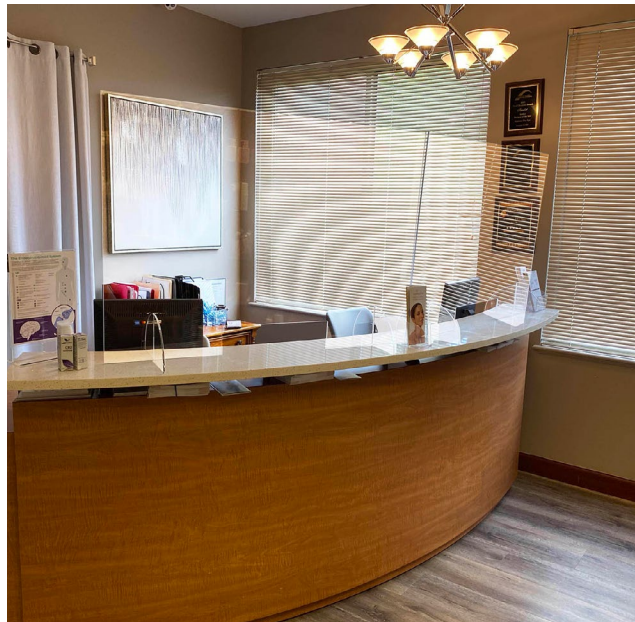

Sneeze Shields

Perfect for use on reception counters or salon desks, our clear plexiglass sneeze shields provide a solid barrier of protection to limit the spread of airborne particles.

Available in any shape or size, our sneeze shield systems are entirely configurable to suit the needs of your space and industry.

Options include:

- Portrait or landscape orientation
- Custom dimensions
- Custom cut-out sizing
- Site survey available

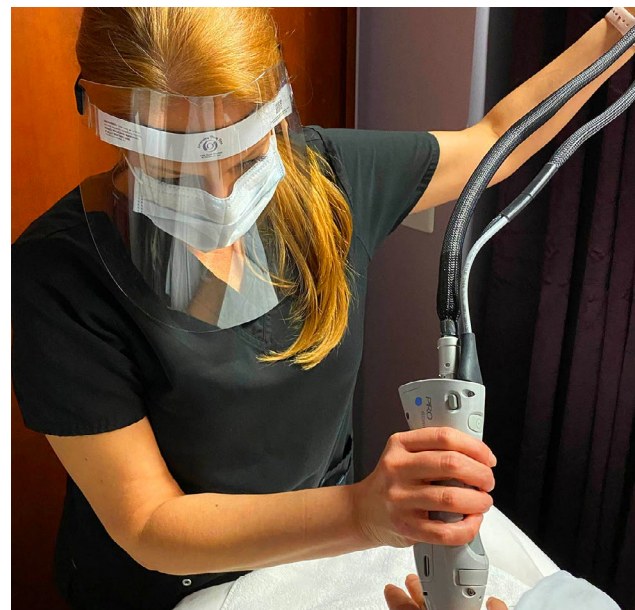

Health

Face Shields

When working in close proximity to patients or customers, there is no substitute for a solid barrier of protection. Our Protec-Shield face shields are designed for maximum functionality and comfort, incorporating a foam-padded headband and adjustable elastic straps.

If so desired, we can add your custom branding to the headband portion of the face shield.

ANSI Z87.1-2020 D3 Tested & Compliant.

OSHA Compliant.

Health

Intubation Shield Box

ABC Imaging's intubation shield box is designed for fast and easy assembly and usage. Fabricated from plexiglass material, the intubation shield box provides a solid layer of protection for health care providers during medical procedures.

After usage, the intubation shield box - can be disinfected and re-used as needed.

Health

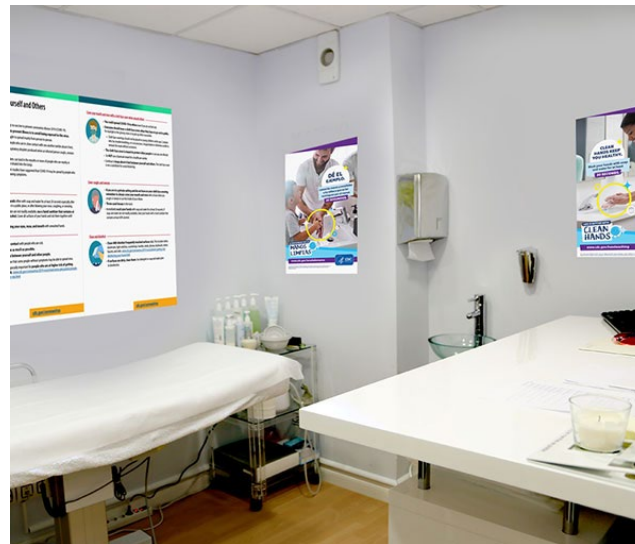

Informational Posters

We offer a selection of designs direct from the CDC or can print custom designs for your office.

For everything from social distancing, to personal protective equipment and hand-washing procedures, informational posters and decals allow your location to operate safely and efficiently.

Formats include:

- Standard cardstock posters
- Adhesive posters
- Foam-mounted posters
- Large-format graphics

Health

Graphics & Signage

In volatile situations such as the COVID pandemic, your visibility and your ability to dispense helpful information plays a key role in the success of your health organization. With clear and concise banners and signage, you are able to create a well-branded and easily understood presence to allow your patients to easily find you and adopt best practices to limit the spread of dangerous pathogens.

We offer banners and signage in a variety of substrates including vinyl, mesh, and fabric as well as portable retractable banners and specialty signage on metal, wood, acrylic, canvas and more.

Construction

Construction

[Hard Hat Face Shields](#)

[Signs & Wayfinding](#)

[Fence Scrims](#)

[Billboards & Banners](#)

[Scaffolding Graphics](#)

When safety is paramount, it is important to offer clear and concise direction and appropriate equipment to protect employees.

Using a mix of large format graphics, custom personal protective equipment, and wayfinding signage, we are able to outfit construction job sites completely to maximize the safety and productivity of your work force.

Construction

Hard Hat Face Shields

Our removable hard hat face shield attachment allows workers to add an additional layer of protection against aerosolized particulate.

The one-size-fits-all design incorporates Velcro attachments that attach underneath the brim of the hard hat to allow for a safe and secure fit.

Construction

Signs & Wayfinding

Create a well-branded environment with requisite wayfinding and informational signage using large format graphics.

We offer signage and wayfinding solutions in a variety of formats including posters, banners & signs, fence scrims, placards, and more. We offer a number of pre-made designs as well as design services should you need them to craft a custom piece for your construction site.

Construction

Fence Scrims

Conceal your site and enhance your branding with fence scrims of any shape and size. We use high-quality durable perforated material that will stand up to the elements and look vibrant throughout your construction project.

Ideally suited materials include fabric and mesh material that allows wind to pass through while still offering a vivid image to onlookers.

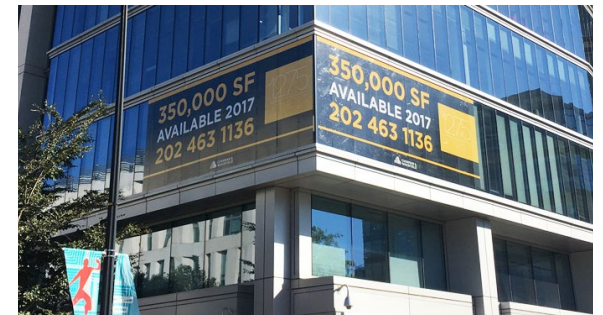

Construction

Billboards & Banners

For construction sites with more available space, we offer grand format large-scale billboard graphics and banners to advertise your company and project or provide safety information to employees and visitors.

Billboards allow you to convert otherwise unused space into a prime advertising opportunity that will capture attention throughout the duration of your project.

Construction

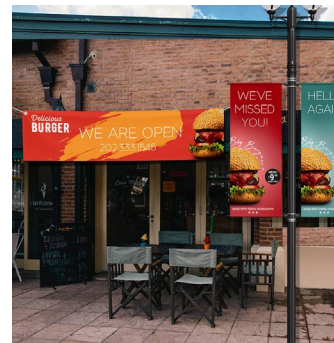

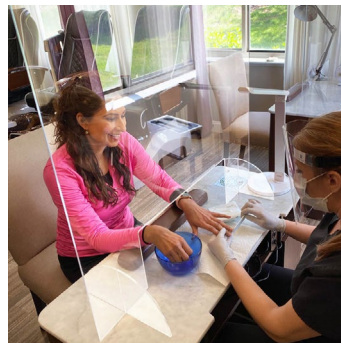

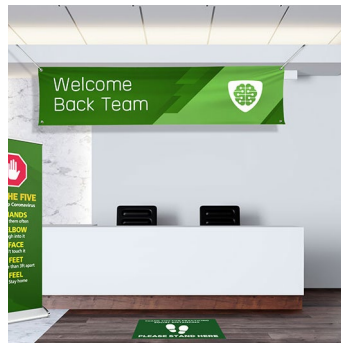

Scaffolding Graphics

Take advantage of the unique advertising opportunity your construction site provides with scaffolding graphics.

Promote your brand or give your audience a glimpse of what is to come with rendered photos. From vinyl to mesh, fabric, aluminum, wood, acrylic, and more, we offer a wide variety of substrates and finishes so you can tailor your imagery to the demands of your environment.

Product Glossary

Sneeze Guard

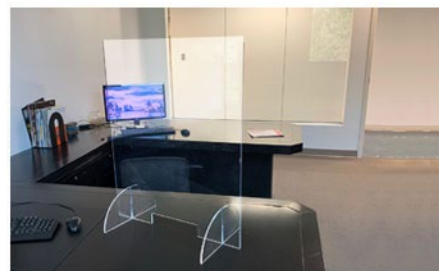

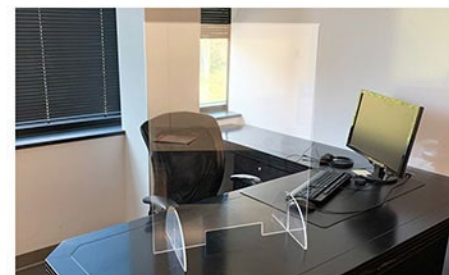

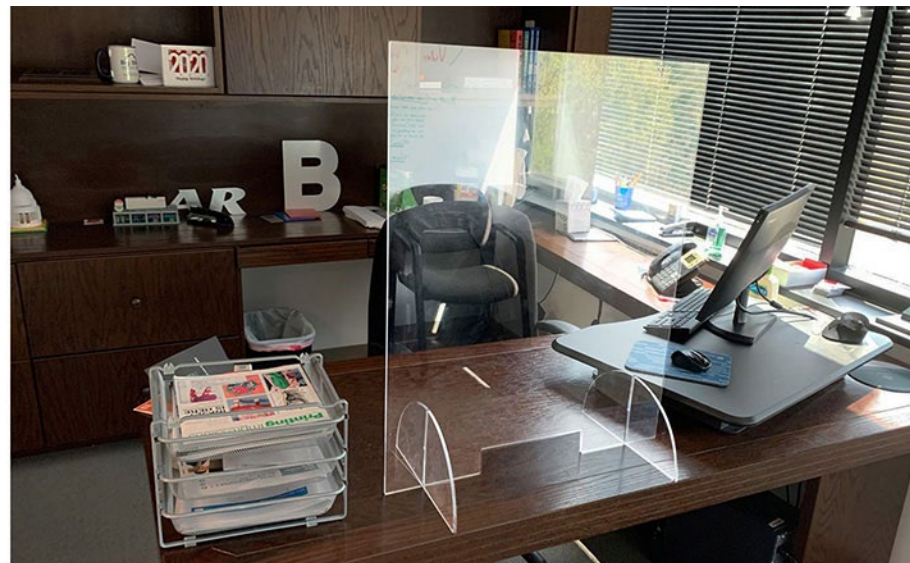

Provides an added layer of protection for settings where in-person communication is necessary.

Perfect for use on office desks, customer service counters, spas & nail salons, or meeting room tables, this modular cough and sneeze guard helps to limit the spread of the viruses and bacteria without limiting your ability to communicate with customers or coworkers. The sneeze guard comes in a few standard sizes and configurations but can also be entirely customized to fit your space.

Whether you need an added layer of protection for your retail location, office desk, nail salon, or any other space where in-person communication is necessary, our plexiglass sneeze guard is the customizable solution for you.

Available in any shape or size and configurable to suit the needs of your space and industry.

- Portrait or landscape orientation
- Custom dimensions
- Custom cut-out sizing
- Fabricated with clear plexiglass
- Site survey available

Product Glossary

Face Shields

The ABC Imaging Protec-Shield Face Shield is optimized for protection, functionality, and comfort.

This new and improved face shield design incorporates a more roomy and comfortable fit, adding foam padding to the headband and adding more space between the face and shield.

Features include:

- Padded forehead mount
- More space between face/shield
- Malleable PETG plastic material
- Adjustable elastic strap
- Custom branding available
- Streamlined assembly process

Face Shield Dimensions: 12.625" W x 11" H

Head Band Dimensions: 9.75" W x 1" H

ANSI Z87.1-2020 D3 Tested & Compliant. OSHA Compliant.

Product Glossary

Hard Hat Construction Helmet

Optimized for protection, comfort, and durability

ABC Imaging's hard hat face shield attachment is perfect for use on construction sites where hard hats are required, but additional face protection is needed. Tailored to fit nearly any hard hat design, our face shield attachment provides much needed protection against aerosolized particulate. The face shield attachment is constructed from food-safe PETG plastic and is fully removable, using adhesive Velcro to attach to the inside of your hard hat.

Features include:

- One size fits all design
- Removable Velcro attachments
- Made from food-safe PETG plastic
- Easy to attach/remove as needed
- Adhesive Velcro tabs included
- Solid barrier designed to block aerosolized particles

Face Shield Dimensions: 11.5" W x 9.5" H

Product Glossary

Intubation Shield Box

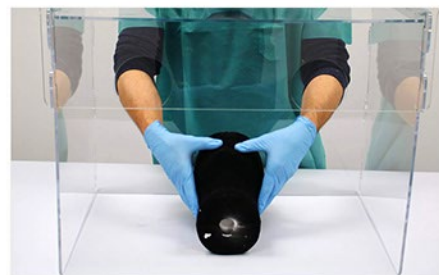

Designed for easy assembly and usage, this intubation shield box minimizes exposure for healthcare professionals.

ABC Imaging's intubation shield is constructed for fast and easy assembly/disassembly and is easy to clean and disinfect after usage. The intubation aerosol box helps to limit the spread of harmful aerosolized airborne contaminants between patients and care providers. Use during intubation to separate the provider from the patient and create an added layer of PPE.

Features include:

- Tooth and lock for easy assembly and storage
- One-minute assembly time
- Replaceable panels with alternative access points when in need
- Clear plastic lies flat when not in use
- Can be sanitized for multiple uses
- Easy to clean and sterilize

Intubation Box Dimensions: 22h x 28w x 19d

Product Glossary

Barricades

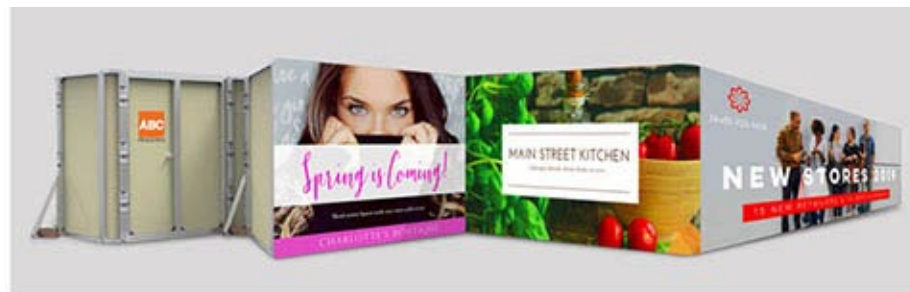

Whether you need to conceal construction or subdivide a space, temporary barricade systems offer an efficient and effective solution.

ABC Imaging's custom temporary modular enclosure systems are an incredibly versatile tool for any property manager or developer. They are reusable, can be configured for spaces of virtually any shape and size, and come replete with innovative features that minimize the impact of construction on the surrounding environment.

Compared to traditional drywall alternatives, ABC Imaging's modular barricade systems can be installed and removed in a fraction of the time for a fraction of the cost, all while remaining environmentally friendly and maintaining 100% landfill avoidance. ABC Imaging is also able to leverage its extensive grand format printing expertise to deliver high-quality custom graphics to compliment our barricade systems.

Features include:

- Rapid installation/removal process
- Wall shops/recessed displays
- Virtually unlimited dimensions
- Dust-resistant seams
- Double doors
- 100% recyclable

Product Glossary

Floor Graphics

Ensure a comfortable and safe shopping experience for all with social distancing floor graphics.

Floor graphics can be a very effective and unobtrusive tool to promote social distancing in your essential business. We use a high-quality 8-millimeter thick textured PVC film that is designed for a wide variety of indoor applications, including short term floor graphics, short term wall graphics, and applications to other flat surfaces.

We can print any shape or size:

- Square
- Rectangle
- Circle
- Triangle
- Arrows
